## **Bradley Blaszczek Promoted to Manufacturing Manager at Electromed, Inc.**

**NEW PRAGUE, MINNESOTA, December 18, 2009** - Brad Blaszczek recently joined Electromed in 2009 as a Manufacturing Engineer and, soon after, was promoted to Manufacturing Manager. In this position he brings over 13 years of broad leadership experience in manufacturing operations for various sized companies, including rapidly growing, entrepreneurial companies. Through his experience and training he has become skilled at implementing cutting-edge, lean manufacturing techniques in a practical manner for improved efficiency and product quality. Mr. Blaszczek holds a B.A. degree from St. John's University in Collegeville, MN.

In response to his recent promotion, Mr. Blaszczek stated, "I am excited to become part of Electromed's already outstanding management team and contribute to its continued success. Through experience and commitment to continuous improvement and lean manufacturing practices, Electromed will be able to navigate successfully through rapid growth as well as continue to advance its standing as the innovative leader in airway clearance."

Electromed Inc. is the innovative leader in the development, manufacturing, and worldwide sales of the SmartVest® Airway Clearance System, a patented medical device that uses High Frequency Chest Wall Oscillation (HFCWO) to provide Chest Physiotherapy (CPT). HFCWO has been proven to clear the lungs of excess mucus and improve lung drainage, thereby reducing lung infections. Electromed, Inc., the first to provide a portable, programmable, and multi-positional operating system, takes pride in claiming its place as the "Innovative Leader in Airway Clearance."

For more information on the SmartVest® Airway Clearance System or HFCWO therapy, contact Electromed, Inc. at info@electromed.com or 800-462-1045 or visit www.electromed.com.
