**Kelly Lunder Assumes Company-Wide Training and Development Position at Electromed, Inc.**

NEW PRAGUE, MINNESOTA, June 24, 2010 – Kelly Lunder has been hired to implement the new Company-Wide Training and Development program at Electromed, Inc. after an extensive search for the ideal candidate. While Ms. Lunder will be located at the Corporate Office in New Prague, MN, her responsibilities encompass all Electromed, Inc. national and international operations.

In response to her hiring, Ms. Lunder stated, *"The employees of Electromed, Inc. are proud of their accomplishments, products, and service to their customers, and I am thrilled to be a part of this growing Company. It is a wonderful opportunity for me to help ensure continuous improvement and build upon their impressive successes."*

Eileen Manning, Director of Training, added, *"We are so excited to have Kelly Lunder on board and utilize her national sales training and ISO experience to implement our Company training initiatives."*

Kelly joined Electromed, Inc. in May of this year, bringing over 13 years of experience in training, development and communications. After earning a Bachelor of Science in Mass Communications, she served General Motors (GM) as Plant Communications Manager, where she was the regional spokesperson and PR representative, managing all communication, events, and public policy for local and state government. Most recently, she held the position of Project Manager for Client Services at Kroll Ontrack Inc, focused on electronic discovery. Previously, Ms. Lunder was the Sr. Communications Manager at Lifetouch Portrait Studios, developing portrait studio communication and sales curriculum..

Electromed Inc. is the innovative leader in the development, manufacturing, and worldwide sales of the SmartVest® Airway Clearance System, a patented medical device that uses High Frequency Chest Wall Oscillation (HFCWO) to provide Chest Physiotherapy (CPT). HFCWO has been proven to clear the lungs of excess mucus and improve lung drainage, thereby reducing lung infections. Electromed, Inc., the first to provide a portable, programmable, and multi-positional operating system, takes pride in claiming its place as the "Innovative Leader in Airway Clearance."

For more information on the SmartVest® Airway Clearance System or HFCWO therapy, contact Electromed, Inc. at [info@electromed.com](mailto:info@electromed.com) or 800-462-1045 or visit [www.Electromed.com](http://www.Electromed.com).
